

CARGO COVER

PROTECT EQUIPMENT. DETER THEFT.

A Safe Fleet Brand

SAFETY

Eliminate supplies from blowing out and becoming projectiles for other drivers

ELEMENTS

Minimize dirt, dust, water and other elements from entering the bed

LOCK

Discourage theft and conceals contents with optional lock

DOOR AJAR

This option sends an in-cab signal alerting driver the cover is open (available on motorized cover only)

FLAME RESISTANT

Ideal for welders and oil field applications where flame resistant construction is a must

STRENGTH

Provides an 800lb. load rating, eliminating weak canvas tarps that rip and tear

WARRANTY

7 year on cover; 1 year on motor

- **800 lb. load rating**

PROTECTING TOOLS AND EQUIPMENT

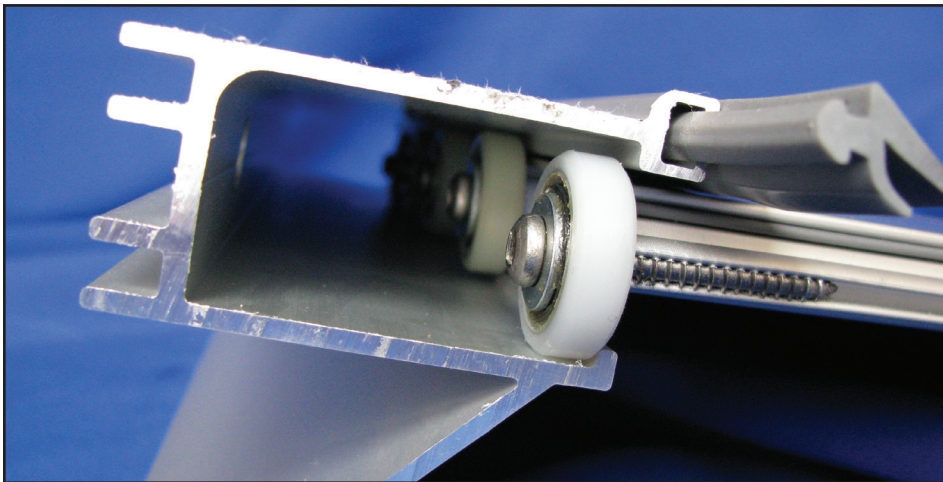

Cover stores neatly inside the bed using this simple coil system

Pull strap assists in closing cover (manual cover shown with optional key lock)

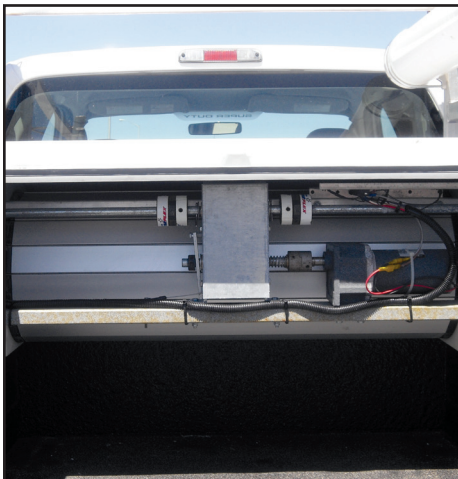

Service body (manual cover shown). Inquire about minimum and maximum widths

This cut away view illustrates the 1¼" of play inside the track system that reduces the cover from binding. Urethane wheels and stainless steel bearings and hardware ensure long life

Service bodies (motorized cover shown). Inquire about minimum and maximum widths

Interior view of motorized cover

Wireline bodies (motorized cover shown). Inquire about minimum and maximum widths

Service bodies (motorized cover shown). Inquire about minimum and maximum widths
