

Roll-up Door - Drip Pan Pennant Plate Retrofit Kit Installation Instructions

Introduction

Please read and carefully follow these instructions!

This Retrofit Kit will allow customers to install a drip pan on an existing R-O-M Roll-up Shutter.

Kit Includes:

- (2) Drip Pan Pennant Plates with pre-installed Hanger Stud (1 left, 1 right)

Tools Needed:

- Drill with 11/64" Drill Bit
- Fasteners (Self-tapping hex-head #10 machine or sheet metal screws are recommended)
- Screwdriver – Phillips

Installing the Supplemental Drip Pan Pennant Plates:

1. Determine what size pennant plate is installed. If the existing plate is an A, B, or C; place the drip pan pennant plate flush up against the existing pennant plate as shown in Fig. 1. Making sure the hanger stud is placed on the same side of the U-Bracket as shown. For D size pennant plates the drip pan plate will need to be mounted 3" below the pennant plate as shown in Fig 1.

Roll-up Door - Drip Pan Pennant Plate Retrofit Kit Installation Instructions

2. Match drill two 1 1/64" holes for each drip pan pennant plate.
3. Next, mount the drip pan pennant plate.
4. Repeat directions #1 through #3 for the opposite side drip pan pennant plate.
5. Install the Drip Pan:
 - a) To install the drip pan slide the back of the pan onto the hanger studs located at the rear of the pennant plate until the spring latches locate the correct holes to make the pan level.
 - b) To clean the pan, retract spring latches and slide off hanger studs to remove.

To Install the Optional Drain Hose:

1. Install drip pan to verify fit then remove and install optional drain hose.
2. Drill a 3/8" hole in the drain pan where you would like your drain hose.
3. Place a small amount of silicone sealant under the flange of the brass insert and push it into the drip pan from the top. With the wire hose clamp installed on the hose about 2" from the end, slide the hose onto the brass insert until flush with the pan. Move the hose clamp up so that the hose can be held in place.

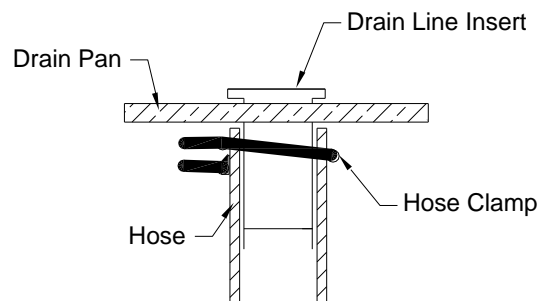

Fig. 2

This completes the installation of the Drip Pan Pennant Plate Retrofit Kit.
